

**IN THE SPECIFICATION:**

Please insert the following on page 13 at line 22.

a1

**BRIEF DESCRIPTION OF THE DRAWINGS**

a2

The present invention will be further described but not limited by reference to the accompanying drawings as follows.

a3

FIG 1 is a cross-sectional view of a deflector device according to the present invention.

a4

FIG 2a is angled perspective of the paddle unit shown in FIG 1 and 2b is an end elevation in the direction of arrow A in FIG 2a of the paddle unit.

a5

FIG 3 comprises diagrammatic cross sectional views showing a bottle on a conveyor, in FIG 3a at the point the paddle plate is initially contacting the bottle, (the angle of the paddle plate to the vertical being exaggerated) and in FIG 3b secondary contact occurring slightly later in the rejection stroke.

a6

FIG 4 is an angled perspective view of the present invention installed on a bottle conveyor.

a7

FIG 5 is a diagrammatic plan view of a divertor system of the inventor this showing a main conveyor, associated secondary bottle take-off conveyor and bottle rejection table showing *in solid* a deflector plate of a divertor of the present invention in its rest position and, *in phantom*, at the end of its diverting position extending across the pathway of the conveyor for a stream of travelling bottles.
